

Scaling PHP in the Cloud

A one-day conference on making the
transition to cloud computing

Saturday, 9 July 2011

Bangalore

Sponsor Kit

About

- **Scaling PHP in the Cloud** is a participant-driven conference on scaling web applications
- PHP is today the world's most popular open source web development language. It is used by millions of websites, most often via applications like WordPress and Drupal. Deploying a PHP website is straightforward and supported by nearly every web hosting provider. (*continued...*)

- There are limits to how much load a single web server can take though. For your website to scale, you will sooner or later need to a transition to a multi-server deployment, and this can be hard. It requires thinking about web development in entirely new ways.
- The exciting new world of cloud computing promises to make all this much better. “Cloud computing” is an umbrella term for a range of tools and techniques that make scalability possible. **Scaling PHP in the Cloud** is a one day conference on what it takes to make the leap from single server to multi-server deployments, and of making sense of the new world beyond.

Online Resources

- Participant-driven agenda creation:

- Event website:
<http://phpcloud.hasgeek.in/>
- Ticketing:
<http://phpcloud.doattend.com/>

At Venue Resources

- The venue has a large 450-seater hall and two 80-seater lecture rooms
- All three equipped with projectors, sound systems and video recording of the sessions
- Garden behind the main hall for lunch area

Sponsorship Proposal

- Five categories of sponsorship: Community (∞), Silver (4), Gold (2), Platinum (1) and Title (1)
- All categories of sponsorship get access to our community outreach channels
- Benefits are incremental: higher categories get everything the lower categories do, except where noted
- All prices are inclusive of taxes

Community Sponsorship

- **Option 1:**
Logo, landing page and link to sponsor website from the event website
- Landing pages encourage participants to explore sponsors and their involvement in the event, improving return on investment
- **Rs 8,192**
- **Option 2:**
The previous, but you may also bring your own banners (2x 6'x3' standee) to display at the event
- ~~Rs 16,384~~ **Rs 8,192** (*intro*)
- The community sponsorship is intended for startups that want to recruit or improve awareness of their product

Silver Sponsorship

- Silver sponsors are featured on our official event banners at the venue
- Silver sponsors get top billing at one of these (exclusive to the silver sponsorship category)
 - Videos (posted after the event)
 - Lunch; Internet Access
 - Session track (apart from the main hall)
- **Rs 32,768**

Gold Sponsorship

- Gold sponsors may setup a stall at the venue
- We will provide a table (6' wide), power and internet access
- **Rs 65,536**

Platinum Sponsorship

- Platinum sponsors get a reserved sponsor session in the main hall before lunch (45 min)
- This session will be after the opening keynote session, which is reserved for a community-selected speaker and is expected to set the tone for the day
- The sponsor gets a full audience
- Rs 1,31,072

Platinum++ Sponsorship

- This advanced category has the same benefits and title as the Platinum category, but also buys out the Gold category, ensuring high visibility for the sponsor at the event
- **Rs 2,62,144**

Title Sponsorship

- The sponsor's name is added to the event name. This category buys out both Gold and Platinum categories
- Rs 5,24,288
